(h) No church, religious congregation, or religious society of any creed is required to withhold or deduct any sum from the wages, salaries, commissions, or other compensation due by the church, religious congregation, or religious society to its employees as salaries, wages, commissions, or other compensation. SECTION 8. APPORTIONMENT OF GROSS RECEIPTS IN CALCULATING FEE DUE

(A) Except as provided in subsection (D) of this section, gross receipts shall be apportioned as follows:

(1) For business entities with both payroll and sales revenue in more than one tax district, by multiplying the gross receipts by a fraction, the numerator of which is the payroll factor, described in subsection (B) of this section, plus the sales factor, described in subsection (C) of this section, and the denominator of which shall be two; and

(2) For business entities with sales revenue in more than one tax district, by multiplying the gross receipts by the sales factor as set forth in subsection (C) of this section.

(B) The payroll factor is a fraction, the numerator of which is the total amount paid or payable in the city during the tax period by the business entity for compensation, and the denominator of which is the total compensation paid or payable by the business entity everywhere during the tax period. Compensation is paid or payable in the city based on the time the individual's service is performed within the city.

(C) The sales factor is a fraction, the numerator of which is the total sales revenue of the business entity in the city during the tax period, and the denominator of which is the total sales revenue of the business entity everywhere during the tax period.

(1) The sale, lease, or rental of tangible personal property is in the city if:

(a) The property is delivered or shipped to a purchaser, other than the United States government, or to the designee of the purchaser within the city regardless of the f.o.b. point or other conditions of the sale; or

(b) The property is shipped from an office, store, warehouse, factory, or other place of storage in the city and the purchaser is the United States government.

(2) Sales revenues, other than revenues from the sale, lease or rental of tangible personal property or the lease or rental of real property, are apportioned to the city based upon a fraction, the numerator of which is the time spent in performing such income-producing activity within the city and the denominator of which is the total time spent performing that income-producing activity.

- (3) Sales revenue from the sale, lease, or rental of real property is allocated to the tax district where the property is located.
- (D) If the apportionment provisions of this section do not fairly represent the extent of the business entity's activity in the city, the business entity may petition the city or the City may require, in respect to all or any part of the business entity's business activity, if reasonable:
- (1) Separate accounting;
 - (2) The exclusion of any one or more of the factors;
 - (3) The inclusion of one or more additional factors which will fairly represent the business entity's business activity in the city; or
 - (4) The employment of any other method to effectuate an equitable allocation and apportionment of gross receipts. The City must approve any alternate apportionment method prior to its implementation by the business entity. Once an alternate apportionment method is approved by the city, the business entity must apply such apportionment scheme in all future tax years, unless otherwise directed by the City.
- (E) When compensation is paid or payable for work done or services performed or rendered by an employee, both within and without the city, the license fee shall be measured by that part of the compensation paid or payable as a result of work done or service performed or rendered within the city. The license fee shall be computed by obtaining the percentage which the compensation for work performed or services rendered within the city bears to the total wages and compensation paid or payable. In order for the city to verify the accuracy of a taxpayer's reported percentages under this subsection, the taxpayer shall maintain adequate records.
- (F) All partnerships, S corporations, and all other entities where income is "passed through" to the owners are subject to this ordinance. The occupational license fee imposed in this ordinance is assessed against gross receipts before it is "passed through" these entities to the owners.
- (G) If a business entity makes, or is required to make, a federal income tax return, the occupational license fee shall be computed for the purposes of this ordinance on the basis of the same calendar or fiscal year required by the federal government, and shall employ the same methods of accounting required for federal income tax purposes.
- (H) If any business entity dissolves, ceases to operate, or withdraws from the City during any taxable year, or if any business entity in any manner surrenders or loses its charter during any taxable year, the dissolution, cessation or business,

withdrawal, or loss or surrender of charter shall not defeat or excuse the requirement to file returns nor the assessment and collection any occupational license fee for the period of that taxable year during which the business entity had business activity in the City.

SECTION 9. EMPLOYERS SHALL WITHHOLD FEE.

- (A) Each employer who employs one or more person(s) working within the City is required to obtain an occupational license and, if applicable, shall complete and execute the City's Application for Occupational License on behalf of each of its employees.
