

REQUEST FOR QUALIFICATIONS FOR PERSONAL SERVICES CONTRACT

CITY OF BELLEVUE, KENTUCKY

This document constitutes a Request for Qualifications for Personal Services Contract from qualified individuals and organizations to furnish services as described herein for the City of Bellevue, Kentucky.

I. PROJECT DESCRIPTION

The City of Bellevue, Kentucky, (City) desires to hire a Civil Engineering firm to act as the City Engineer and provide the planning and design of roadway and sidewalk projects, writing Local Public Agency (LPA) Grant applications, designing LPA projects that are awarded, and ensuring all LPA guidelines are followed. Other duties may include but are not limited to landslide mitigation, pavement management inventory and roadway maintenance, traffic signal and signage recommendations, capital improvement planning and design, bidding, utility infrastructure review, conducting public meetings, and coordination with the Kentucky Transportation Cabinet regarding any issues on state routes located within the City.

II. PROJECT INFORMATION

Project Manager: Frank Warnock
Title: City Administrator
Project Funding: City Funds and Grant Funds

III. PURPOSE AND NEED

The City does not have a full-time engineer on staff and seeks to hire a firm to handle the engineering needs of the City. This firm will be tasked with day-to-day engineering needs, detailed design and surveying, and administering grant projects from the application process through design and construction.

IV. DBE REQUIREMENT

Consultants should include a Disadvantaged Business Enterprise (DBE) Participation Plan with their response. A maximum of 5 points will be considered in the Evaluation Factors for the DBE Participation Plan.

V. SCOPE OF WORK

The selected Consultant must be pre-qualified with the Kentucky Transportation Cabinet and have the education, training, certifications and experience needed to address the City's needs. The selected consultant will need to provide services that include but that are not limited to: surveying, preliminary and final design, grant writing and administration, roadway audits, planning studies, public engagement, traffic signal and signage recommendations, striping recommendations, utility relocations and permitting, storm water mitigation and planning, and construction administration/inspection; and, the other duties indicated herein. The selected consultant shall keep the City informed and updated on the consultant's work at regular intervals and on request of the City.

VI. SPECIAL INSTRUCTIONS

The City may elect to retain any of the advertised services to be performed by in-house forces.

VII. RIGHT TO REJECT

The City retains the right to reject any and all proposals.

VIII. METHOD OF DESIGN

The selected Consultant shall utilize the most recent CADD Standards for Highway Plans Policy in the development of highway plans.

IX. ENVIRONMENTAL

Any necessary Environmental Services will not be included as part of this contract and will be handled separately.

X. PHOTOGRAMMETRIC SERVICES

The City and/or KYTC may be able to provide mapping and LIDAR data for certain projects. The selected Consultant shall supplement any mapping and LIDAR provided by the City or KYTC and will need to provide any necessary surveying as needed.

XI. STRUCTURE DESIGN

Small scale structure design may be required on certain projects. Prequalification in the area of Structure Design for spans under 500 feet is required to be identified in the Consultant's Response to Announcement.

XII. GEOTECHNICAL SERVICES

Geotechnical Services will not be required as part of this contract and will be handled on an individual basis should the need arise.

XIII. TRAFFIC

Any available traffic projects will be provided for each project that is assigned. The selected consultant will be responsible for performing any necessary traffic studies and must be prequalified through KYTC in "Traffic Operations".

XIV. UTILITIES

The selected consultant will be responsible for locating existing utilities and coordinating the relocation of existing utilities on projects where avoidance is not an option. The selected consultant must be prequalified through KYTC in "Highway Design – Utilities".

XV. RIGHT-OF-WAY

The selected consultant will be responsible for performing right of way work for LPA projects. This will include performing right of way negotiations, acquiring temporary and permanent easements, and acquiring right of way. The selected consultant must be prequalified through KYTC in “Right-of-Way Services”.

XVI. PREQUALIFICATION REQUIREMENTS

To respond to this project the Consultant must be prequalified with the Kentucky Transportation Cabinet (KYTC) in the following areas by the response due date of this advertisement:

ROADWAY DESIGN

- Roadway Design – Urban
- Roadway Design - Rural
- Surveying

TRANSPORTATION PLANNING – PEDESTRIAN & BICYCLE FACILITY PLANNING & DESIGN

STRUCTURE DESIGN

- Spans under 500 feet
