In the early part of 2019, The Campbell County Historical and Genealogical Society posted notices that we were seeking photographers, amateur and professional, to participate in a book project. Sixty photographers responded and spent the entire day on Saturday, April 27, 2019 out taking pictures of every inch of our County. They submitted over 1,900 photographs. This book is a culmination of their work and a collection of places that make Campbell County such a great place.

The finished product is a full color 260 page, hardcover book with dustcover, printed on high quality photo paper. This is a book you will want to share with others and pass down from generation to generation.
