PROJECT UPDATES FROM CITY ENGINEER

PROJECT	STATUS
COVERT RUN FLOODING	The attorney for Mrs Kiefer said they are considering removing the pipe and restoring the creek. I have a message out to SD1 to determine what types of permits would be needed.
DONNERMEYER DRIVE	PRIME has switched the design over from their site group to their transportation group. The engineering working on it is updating the plans and said he would get me an updated timeline on when he expects to be finished over the next couple of weeks when another engineer gets back to the office from maternity leave. Once complete, updated plans will be sent to City for a final review and to Maggie at KYTC for the final environmental approval. Consent release may not be an option. I am working with Dave to see if we can figure out the best path forward for the temporary easements.
Covert Run	We only need the consent and release form from 650 Covert Run because 3 cars stack up from the back of the driveway up to the edge of pavement. PRIME is checking to see if the design can be updated to stay off this property all together. It sounds promising they can. Palmer has started on the environmental process, and Danny is working on the stormwater component with Ryan at PRIME. PRIME to send plans to review ASAP. A new storm inlet will be installed near 611 Covert Run so the owner can tie any private improvements to this if he wants.
Riverfront Commons Multi-Use Path	PRIME said they sent the disturb limits to KYTC to review and they will send them to me by 10.2. They expect to have all the plan updates by the beginning of December. Lochner is going to do the Environmental. The path may be widened and made thicker to accommodate maintenance vehicles as needed. SD1 may end up paying for the retaining wall near the parking garage as part of their micro-tunneling project that is being discussed. We have a mtg on 11.10 with KYTC to stress the importance of a quick plan and environmental review.
Pedestrian Bridge	We need the construction agreement from CSX signed by the City. We will hold a pre-bid meeting to go over project details with the potential contractors. The project will be put out to bid on 11/11 with bids due back 12/3.
Lincoln Road Sidewalk	The construction MOA has been signed by the City and is being circulated through KYTC to get their necessary signatures. We can put out to bid as soon as the notice to proceed is sent. An RFQ for inspection should be sent out.
Annual Resurfacing	Resurfacing work complete. They are going to move the crosswalk on Grandview at Foote to the other side of Foote.
Benke Sidewalk	PRIME has submitted plans to KYTC to review. PRIME is coordinating with Mike Jones with KYTC in Frankfort on the environmental process. The limestone curbs will need to be salvaged.
Fairfield Ave Sidewalk	Environmental has been cleared. PRIME is looking into potentially extending the sidewalk in front of the Bellevue Vets back 6 inches to get 4’ of clearance around each of the utility poles. Plans were submitted to KYTC 7/17
Taylor at Center	Cost share was approved for 75% by SD1. Project out to bid on 11/4 and due back on 11/18.

Truman/Covert Run Private Storm Issue	We have performed the dye testing to verify where all the storm inlets in the condo parking lot outlet. We need video showing where the water from the adjacent driveways ends up.
LARP – Lafayette full depth reconstruction	Project is ready to be advertised for construction.

MEMORANDUM

TO: Mayor and Members of City Council
FROM: Jon McClain, Police Chief
DATE: November 11, 2026
RE: Declaration of Surplus Property and Authorization for Transferred with compensation to another government agency

Purpose: The purpose of this memorandum is to provide the required written determination supporting the declaration of certain City-owned personal property as surplus and to recommend its disposal by public auction pursuant to KRS 82.083.

Description of Property
The City of Bellevue owns the following item of personal property:
Item Description: 2016 Ford Explorer Police Utility
Manufacturer: Ford
Model: Explorer Police Unit
Unit Number: 16-280
VIN: 1FM5K8AR3HGB07912
Department: Police
Original Use: Police Patrol Vehicle
Proposed Sale: Audubon Park Police Department
Sale Price: $8,000

Condition and Determination: This vehicle is no longer needed for City operations and has been identified for surplus. The vehicle is no longer required to meet the City's current operational needs. Retention of this vehicle would result in unnecessary maintenance and operating costs.

Based on this assessment, staff has determined that the disposal of this property is in the best interest of the City.

Recommended Method of Disposal: It is recommended that the above-referenced property be declared surplus and sold to the Audubon Park Police Department for $8,000. This sale will allow the City to recover residual value from the vehicle while providing for its continued use by another public agency.

Fiscal Impact: The sale of this surplus vehicle will generate $8,000 in revenue for the City. Proceeds will be deposited into the appropriate City fund in accordance with applicable law. No negative fiscal impact is anticipated.

Recommended Action: Staff recommends that City Council adopt Municipal Order No. 2026-11-03, declaring the listed property surplus and authorizing the Mayor or the Mayor's designee to proceed with the sale of Unit 16-280, a 2016 Ford Explorer Police Utility, to the Audubon Park Police Department for $8,000.
